

Caito Foods

NEWCOMERSTOWN, OH

VALUE DELIVERED

Caito Foods chose Food Tech, Inc. to plan and design-build its Ohio produce distribution center.

Our solutions included cost-effective insulated steel frame construction and zone engineering to help achieve precise temperature and humidity requirements.

Additionally, our ergonomically-designed material handling system allowed order selectors to access hundreds of stock keeping units at floor level.

CASE STUDY

OPERATING COMPANY

Food Tech

CLIENT

Caito Foods

CLIENT OBJECTIVES

Caito Foods needed a new produce distribution center geographically located to facilitate shipping fresh product by minimizing truck delivery miles.

SOLUTIONS

Our solutions for the 65,000-square-foot addition with 43,000-square-feet of expansion space at Caito Food's produce distribution center included:

- Multi-temperature and humidity zones
- Pressurized banana rooms
- Double-sided refrigerated docks
- Regional office
- Material handling design
- Ergonomic and productive racking system

CLIENT BACKGROUND

Founded in 1960, Caito Foods is an industry-leading nationwide wholesale produce distributor and fresh-cuts processor.
