

Cayuga Milk Ingredients, LLC

AUBURN, NY

VALUE DELIVERED

Cayuga Milk Ingredients, LLC (Cayuga) selected Food Tech, Inc. to manage on-site construction of a new 100,000-square-foot plant, based on our expertise in facility planning and dairy process design engineering.

Our solutions enabled Cayuga to receive and process several million pounds of raw milk daily from their vertically-integrated milking facility.

CLIENT OBJECTIVES

Cayuga needed to construct a dairy process plant in Auburn, NY.

SOLUTIONS

Throughout the project, Food Tech, Inc. provided a variety of services including architectural, civil, process, and structural engineering. Our solutions included:

- Raw milk receiving capabilities
- Construction planning and management
- 120-foot-tall dryer
- Bulk powder storage warehouse
- Concrete wall panels

CLIENT BACKGROUND

Cayuga is a manufacturer of dairy ingredients for the global food and nutrition industries.
